From the Paris Gazette, dated June 18.

*Naples*, May 17.

THE Viceroy has given all neceſſary Orders for defending the Frontiers of the Abruzzo if the Enemy come on that Side: The Barons and all the Nobility are very urgent for marching to meet them before they enter the Kingdom, being deſirous to give Proofs of their Zeal and Fidelity for the Service of his Catholick Majeſty. The Conteſt that had been on foot ſome Years, on Account of the Proceeding againſt the Archbiſhop of Sorriento, is terminated to the Satisfaction of the Pope and of the Viceroy.

*Rome*, May 24. The Pope has held ſeveral Congregations of State, about the Paſſage demanded by the Imperialiſts through the Eccleſiaſticrl State, for the Detachment they are ſending to the Kingdom of Naples. Thoſe Troops are already on the March, without waiting for his Holyneſs's Anſwer, and commit great Diſorders; not paying for what they take, tho' they are furniſh'd with Lodgings gratis; entring wall'd-Towns contrary to the Promiſe given to the Pope; and plundering ſeveral Places through which they have paſs'd. In the mean time his Holineſs has ſent Order to the Legates and Governours, and appointed Signior Agoſtini as Commiſſary, to ſee that they be furniſh'd plentifully with all they ask for, provided they do not take their Route by this City purſuant to the Threats of Cardinal Grimani. From the Leiden and Amſt. Gazette, dated June 24.

*Naples*, May 31. The Diſpoſitions for the Defence of this Kingdom are continued. The Horſe have begun to march towards the Abruzzo, and the Foot will ſet forward to Morrow to joyn the Militia of that Province. The Viceroy propos'd to march in Perſon at the Head of his Army againſt the Imperialiſts; but the collateral Council have perſwaded him to ſtay here, where his Preſence is abſolutely neceſſary, for giving out Orders and keeping all quiet. The chief of the Nobility are ſent for hither to aſſiſt him on this Occaſion; and the Vicars general are order'd to repair to their Provinces, to look to their Security in the preſent Juncture. He has conferr'd divers Offices on many of the Nobility, to engage them in the Service of King Philip, and make them forget his former injurious Uſage of them. He has publiſh'd an Ordinance, enjoyning the Monks to keep in their Monaſterys when the Imperialiſts enter the Kingdom: And to ſuppreſs a Report that he keeps the Galleys of Naples and of the Duke de Turſis in a Readineſs to make his Eſcape with when he ſhall think proper, he has aſſur'd the Nobility and Citizens of Naples of the contrary.

From the Amſterdam Gazette, dated June 24.

Rome, June 4. General Wetzel having had a long Audience of the Pope, ſet out the 2d Inſtant to joyn his Detachment who have taken their Route by Jeſi, whence 'tis thought they will come into our Neighbourhood in their Way to Naples. This March begins to alarm many People, and gives Ground for ſeveral Diſcourſes and Proceedings: The Ambaſſador of Spain who is return'd hither from Fraſcati, is making Proviſion of Arms in his Palace, and Cardinal de la Tremoille is doing the like. 'Tis talk'd the Viceroy of Naples would have Aſcoli for a Place of Arms in caſe the Imperialiſts take that Route, and Sermoneta if they paſs by this City. 'Tis alſo reported, that General Wetzel demanded of the Pope among other things, the Cannon that were taken out of Palo and Sermoneta, the former belonging to Don Livio Odeſchalchi, the other to the Prince of Caſerta.

*Vienna*, June 11. This Court are very hearty in the Deſign of invading Dauphine, and have ſent Order to Prince Eugene to put that Deſign in Execution with all Expedition, in order to make a Diverſion in Favour of King Charles, to whom the Emperour has diſpatch'd an Expreſs to aſſure him that all poſſible Succour will be ſent to him. The Detachment for Naples continues its March. It ſeems Cardinal Grimani is diſſatisfied at the ſending of Count Martinitz to take Care of the Affairs of the Kingdom of Naples; and has repreſented that he has been intruſted hitherto with the Affairs of the Houſe of Auſtria, and has ſo beſtirr'd himſelf that he has engag'd 8000 Neapolitans to take Arms for the Emperour. 'Tis thought this Court will have Regard to his Remonſtrances. General Caraffa, the Marquis de Refrano, and ſeveral other Neapolitan Lords are gone from hence to joyn the Imperial Detachment.

From the Antwerp Courant, dated June 24.

*Trieſte*, June 1. Imperial Commiſſaries are arriv'd here, who have hir'd 16 Tranſport-Veſſels and given Order for Arming ſome Veſſels, to tranſport over the Adriatick 6000 Sacks of Corn and 2000 Recruits, for reinforcing and ſubſiſting the Imperial Troops that are on the March for the Kingdom of Naples.

From the Leiden Gazette, dated June 24.

*Venice*, June 10. 'Tis advis'd from Verona, that all the German Horſe and Huſſars that were in the Mantuan, had paſs'd the Po over the Bridge of Borgoforte, and were march'd joyntly with the Troops of Heſſe Caſſel for Piemont; that only the Regiment of Regal is left in the City of Mantua; that the Prince of Wirtemberg is march'd out of Cremona with his own Regiment and thoſe of Herberſtein and Bagni; and that Prince Eugene was preparing to put himſelf at the Head of the Army in Piemont, which he is to command, the Duke of Savoy being oblig'd to take Medicines for his Indiſpoſition. Letters from Loretto of the 4th Inſtant, ſay Count Taun and ſeveral General Officers of the Imperialiſts arriv'd there the 2d, and the next Day went from thence to Montechio to rejoyn their Troops, who were to march the 8th by the Road to Rome for Naples. The laſt Letters from Bologna tell us 2200 Imperialiſts were following that Detachment. They write from the Borders of the Abruzzo, that Signior Scarpileggia has already got together 6 or 7000 Men for the Emperour, that he has Colours with his Imperial Majeſty's Arms in them, that he gives Paſſports in which he ſtiles himſelf *Chief of the Volunteers for the Houſe of Auſtria*, and that he has aſſur'd the Court of Rome he and his Adherents will do no Damage to the Eccleſiaſtical Territories. P.S. An Expreſs from Signior Nani our Envoy at the Court of Rome, has brought an Account, that the 8th the Imperialiſts were encamp'd beyond Foligno on the Road to Rome; that thereupon the Pope had caus'd 3 Gates of the City to be ſhut; and had made the Inhabitants take Arms, to oppoſe the Imperialiſts who make exorbitant Demands of him.

From the Amſterdam Courant, dated June 25.

*Turin*, June 1. The Hereditary Prince of Heſſe-Caſſel, who is at preſent here, has deſir'd our Dutcheſs and the Princes her Sons to ſee the Troops he commands paſs through the Neighbourhood of this City the 6th Inſtant to the Rendezvous at Rivoli. Thoſe Troops make a Body of 15000 Men. The Marquis de Trivie, who is appointed to go Ambaſſador from our Duke to King Charles III, ſent his Baggage to Genoa the 24th paſt, and the ſame Day Don Pedro Moraz Envoy from that King caus'd the Arms of Spain to be put up over the Gate of his Palace. Our Forces are all drawing to their Rendezvous. The 30th paſt Advice was brought from Coni, that our Militia had beaten the French out of the Poſt of Barere between Edmont and Barcelonetta, and taken ſeveral Priſoners. Yeſterday Notice was given by our Archbiſhop, purſuant to the Duke's Order, that to excite all Perſons to implore the Bleſſing of Heaven on his Royal Highneſs's

neſs's preſent Undertakings, the holy Sacrament would be expos'd in the Churches of this City for 9 Days together. To Day the Marquis de Trivie ſet out for Genoa, thence to go by Sea to Barcelona. This Morning all thoſe employ'd in baking for the Army had Orders to bake Bread for the Imperial Troops that are approaching.

From the Amſt. and Leid. Gazette, dated June 24.

*Turin*, Juue 1. His Royal Highneſs has had ſome Returns of his Fever, but being much reliev'd by Medicines, 'tis hop'd he will ſoon recover perfect Health. Two Days ago the Earl of Peterborow ſet out from hence for Milan, whence he will proceed on his Journey to the Netherlands. The 22d paſt, our Duke receiv'd Advice from M. Corbon who commands in the Valley of Aoſte, that the French grew numerous in Savoy, and had a Deſign to make themſelves Maſters of the ſaid Valley, whereupon it was judg'd proper to ſend thither a Battallion of the Regiment of Schuylembourg. The Paſs of la Tuile by which the Enemy muſt enter the Valley of Aoſte is guarded by the Baron de St. Remi with 2500 Men. 'Tis rumour'd the Inhabitants of the Valley of St. Martin have declar'd for us.

From the Antwerp Courant.

*Briancon*, June 2. The Troops commanded by the Marſhal de Teſſe being reinforc'd by 8000 arm'd Peaſants, are reckon'd now (thoſe in Savoy included) to be 30000 Foot and 8000 Horſe. By Order from Court, our Generals cauſe all the Bread-Corn, Oats, Hay, Straw, Horſes, Mules and Cattle, in the Province of Dauphine, to be brought out of the open Towns and Villages, into the wall'd Places; and every Peaſant is allow'd to keep by him but 14 Days Proviſions for his Family, and when that time is expir'd he muſt come to the Wall'd-Towns to be ſupplied with Proviſions for 14 Days more. The Deſign of this is, that if the Enemy ſhould force their Way through the Mountains into Dauphine, their Progreſs may in ſome Meaſure be ſtop'd by Want of Proviſions.

*Pignerol*, June 6. On Advice that the Enemy's Troops in the Valley of Aouſte augment daily, the Marſhal de Teſſe has ſent 5000 Foot into Savoy, to reinforce M. de St. Pater who commands there. Yeſterday the ſaid Marſhal view'd all the Fortifications of this Place and of Fort St. Bridget, and this Evening went towards Suza, where Men are kept continually at work on the Fortifications for ſecuring the Paſſages of the Mountains. The King's Order for all the Proviſions &c, to be carried out of the open Country in Dauphine into the wall'd-Towns, is executed with great Strictneſs, to the great Diſcontent of the Peaſants. The Enemy's Troops are in Motion, and Part of them are encamp'd near Rivoli on the Doria.

*Grenoble*, June 8. General Medavi arriv'd here Yeſterday. He is ſending a great Convoy of Mules loaded with Ammunition to our Army, whoſe Foot is divided into 5 Bodies: The firſt and ſtrongeſt is in Savoy, the ſecond by Suza, the third by Pignerol, the fourth by Col d'Argentieres, and the fifth in the County of Nice. The Horſe, in Number about 9000 are diſpos'd from Guilleſtre to S^t. *Michael*, and are to march where Occaſion may require. Suza and Pignerol are in a good State of Defence, and are gariſon'd each with 5000 Men. Recruits for our Foot paſs this Way daily, ſo that the Regiments will ſoon be complear. The Peaſants that are arm'd and employ'd in our Army have 6 Sols a Day given them, beſides Ammunition-Bread.

From the Antwerp Courant, dated June 24.

*Paris*, June 20. Aſſoon as the Dutcheſs of Nemours was dead, the Prince of Conti ſent an Expreſs to the Marquis de Puiſieux our Ambaſſador in Switzerland, to notify it to the Cantons, and Yeſterday ſet our for Neufchatel himſelf. M. de Villeroy and *M.* de *Matignon*, who make ſome Pretentions to that County, will go likewiſe to Switzerland. Letters from Verſailles ſay Prince Eugene is actually on the March with a ſtrong Army towards Dauphine, and that the Count de Bezons Lieutenant-General is by the King's Order gone Poſt to Provence, to command the Troops that are drawn together on that Frontier.

*Hague*, June 24. The Imperial Miniſter receiv'd an Expreſs from Vienna the 21ſt Inſtant: The two following Days he had Conferences with the States Deputies, on the Affairs of the upper Part of Germany, where Succours not only of Men, but of Ammunition, Proviſions, and Money, are wanted. The ſpeedy Redreſs of thoſe Affairs ſeems to depend very much on the Elector of Hanover's accepting the Command of the Army of the Empire: The Emperour offers it him, the Court of Great-Britain ſollicit him very earneſtly to take it, and the States have made like preſſing Inſtances in a long Letter which they writ to him the 18th. 'Tis hop'd the Elector will comply, as well becauſe it will certainly facilitate his Admiſſion into the Electoral College, as becauſe the Duke of Wolfembuttel has promis'd he will furniſh 1000 Foot and maintain them at his own Expence, if the Command aforeſaid be put into his Electoral Highneſs's Hands. Count Lecheraine arriv'd here 2 Days ago from Duſſeldorp, and has notified that the E. Palatine will forthwith furniſh a Regiment of Horſe, another of Dragoons, and 1 or 2 Battallions, to the Relief of the diſtreſs'd Circles of the Empire: And the Pruſſian Miniſter is poſitive the King his Maſter will alſo contribute thereto very nobly. It may reaſonably be expected that King will do ſo the more readily, becauſe it will be of Importance to him to be ſupported by England and Holland in his Pretentions to Neufchattel in Switzerland: The News of the Death of the Dutcheſs of Nemours came hither the 21ſt, and immediately Baron Schmettau mov'd the States to renew their Recommendation of his Pruſſian Majeſty's Intereſt to the Swiſs-Cantons, and to reiterate their Orders to their Miniſter in that Country: And whereas the Court of Pruſſia is not thoroughly ſatisfied with M. Riboulet, who was ſent to Switzerland 6 or 8 Months ago with a ſpecial Commiſſion from the States about this Affair, Baron Schmettau deſir'd their High Mightineſſes to ſend their Orders now to M. Rumkel their Secretary with the Cantons; to which they conſented, and caus'd a Letter to *M.* Rumkel to be put into the ſaid Baron's Hands, who the 22d at Night diſpatch'd it by an Expreſs to the Count de Metternich the Pruſſian Miniſter at Berne. The Armies in Brabant are in their former Poſts.
